At left Chief Adi VKara Fiji
Islands

In May, she arrived on the land, in a trailer. When she was delivered to our land... She was 1st driven into the new Sundance Arbor; then the trailer backed all the way to the Woman's Dance Arbor. Finally She went to the Buffalo pen. She jumped from the trailer & landed with all 4 hoofs hitting the ground at the same time onto her new home, Thunder Ranch. She is 1 in 10,000,000 a pure white bison from Yellow Stone park. A gift from Dave, Kelly, Bob, & Ossie Hobbs....A gift of Prophecy.

These pictures are from a ceremony that took place at Woman's Dance. Starr Grimes, Mario Cortez, & I, went into the Buffalo pen. A ceremony & prayer for her coming & asking the spirit for a balancing of her & June Bug Dava's energies. Sandy Collins, our warrior outside the pen, for spirit said hers was the only voice that could be heard, watched intently advising us of movements; a amazing group of some 20 women, all great friends of Thuner Ranch, were about a ½ block away led by Denise Downing who held the white buffalo staff, Sparky & Angelique by her side. Finally without spooking the buffalo, with us in the pen, they formed a line & sang ever so soft. The whole ceremony was amazing. In 1985, after a telling of the White Buffalo Calf story by one of the elders one nite, Grandma Grace told me, "Little Girl, someday when you get the land, when it is the end times, you will have White Buffalo on your land to be carefater of. A symbol to all that we are all one under the inifinite Sun" Well Grandma, "Thunder's Blue Star Whisperer' has arrived. During the first Blue Star Sundance she stood attently watching all all danced. What a blessing. So this years Elders Gathering... the first Elder has shown up to greet the other elders & all of you that come.
